The meeting was called to order at 7:02 p.m. by the Chair, Kate Perle. There were 19 in attendance, including 7 Board members. Introductions were called for. Ann Vaughn moved the minutes from the September 5<sup>th</sup> meeting be approved as submitted, Patrick Kerr seconded. Motion passed.

Presentation – Moving Ahead: Andrew Martin of LTD presented an update on the process of planning transportation along major corridors in the future, with emphasis on possible options. He was supported by Chris Henry from the City and Tom Shwetz from LTD. These included a no-change option, and enhanced corridor option, and EmX. Of the 5 corridors, the River Road Corridor seems to have most support. Following the presentation, some suggestions and concerns voiced included a concern about additional traffic interruptions with the enhanced option or EmX option; the issue of how the current transfer station provides a cultural asset for the North Eugene students and whether planned boarding stations would take that away; congestion on traffic lanes north of Beltline; and whether trees removed would be replaced (there will be 142 projected trees impacted by an EmX option. The presentation was concluded with an invitation to an open house at Harris Hall on Monday, October 21<sup>st</sup> at 7:30 p.m. on this topic. Also there are other input options on-line and comments in writing are accepted after this meeting.
